CONSIDERING RE-ROOFING?

CONSIDER A SILICONE RECOVERY ROOF SYSTEM

- Significant cost savings
- No tear off of existing roof, no trash chutes and no dumpsters
- Minimal disruption to building tenants
- Reduced application time
- White silicone coating creates a seamless monolithic membrane over existing aged single ply, modified, and metal roofing systems
- Reduces energy consumption and cost by lowering temperature of the roof - lowers Heat Island effect
- Eliminates the burden on our landfills = Green/Sustainable
- Recovery systems are classified as a maintenance item, not a capital expenditure
- Up to 20 year No-Leak NDL warranties available

**Contact Green Shield Products to see if your roof qualifies
for a Silicone Recovery Roofing System**
